

[72-Objee] - Update of Reunion Registration

To CGA 72 <objee@cga72.com>

The reunion committee has received questions about Registering for the 50th Reunion. Hopefully this will clear up some of the confusion.

First: Terry Newell is maintaining a spreadsheet of data which will give the committee and class an idea of who intends to come to the reunion. This data is used primarily to help the committee estimate the level of interest as well as establish the number of hotel rooms to block off, the size of venues needed and costs for food. Your name on this spreadsheet is NOT committing you to anything. For your info, this data is available on our class website under "All things 50th Reunion"

Second: Once the committee has a handle on the approximate attendance at each event, we can determine the prices needed to support that event. The alumni association will put our events on an official reservation form with theirs so we can pay for everything with a credit card; one and done. The alumni association will put our form (along with those of the other classes) on their website. We do not have an estimated date for that yet.

Third: Hotel room reservations are still up to each one of us. Our class Hotel Headquarters is the Mystic Hilton. See the Class Website for Hilton registration details. Make your reservations at the Hilton or somewhere soon. You can always cancel if your circumstances change.

v/r GregJ for the Committee.
